PROFESSIONAL SUMMARY

Aspiring Data Analyst with nearly two years of experience in business operations and customer support. Skilled in SQL, Python, Power BI, Tableau, and Microsoft Excel through hands-on projects and professional training. Passionate about using data to solve business problems and support data-driven decision-making.

TECHNICAL SKILLS

Programming

- SQL
- Python

AI Tools

- ChatGPT
- Google Gemini

Data Visualization

- Power BI
- Tableau
- Microsoft Excel

Analytics

- Data Cleaning
- Exploratory Data Analysis (EDA)
- Dashboard Development
- KPI Reporting

Tools

- ServiceNow
- MySQL Workbench
- Google Colab
- GitHub
- Visual Studio Code (VS Code)

PROFESSIONAL EXPERIENCE

Siemens Technology and Services Private Limited (STSPL)

09/2024 – Present | Bengaluru

Customer Service Support Operator (Order-to-Cash)

- Managed approximately 50 ServiceNow tickets per week while maintaining SLA compliance and timely request resolution.
- Processed subscription activations, license provisioning, renewals, and access requests following internal operational workflows.
- Performed Level-1 troubleshooting for simulator access, booking, and subscription-related issues.
- Coordinated with internal stakeholders to validate requests and ensure accurate system updates.
- Maintained operational trackers, service documentation, and case records to support reporting and audit readiness.
- Identified recurring operational issues and supported continuous process improvement initiatives.

PROJECTS

AI-Assisted Retail Sales Analytics Dashboard, Tools: Python, SQL, Power BI, Microsoft Excel, ChatGPT, Google Gemini

- Built an end-to-end retail sales analytics solution using Python, SQL, and Power BI.
- Cleaned, transformed, and validated sales data using Python.
- Performed SQL analysis to identify sales trends, customer performance, and product performance.
- Designed an interactive Power BI dashboard to visualize sales, profit, customer performance, regional trends, product categories, and key business KPIs.
- Used ChatGPT and Google Gemini to assist with documentation, code refinement, and workflow support while manually validating the analysis and business insights.
- Presented business insights and recommendations based on dashboard findings.

HR Analytics & Workforce Insights Dashboard, Tools: Python, SQL, Tableau, Microsoft Excel

- Built an HR analytics dashboard using 1,470 employee records to analyze workforce trends and employee attrition.
- Cleaned and prepared HR data using Python.
- Performed exploratory data analysis and SQL analysis to identify workforce and attrition patterns across departments, age groups, and education fields.
- Designed an interactive Tableau dashboard to visualize workforce KPIs and attrition trends.
- Presented business insights and recommendations to support workforce planning.

EDUCATION

Bachelor of Commerce (B.Com), CMR University, Bengaluru

2020 – 2023 | Bengaluru

CGPA: 8.20 / 10

CERTIFICATIONS

- Advanced Certification in Data Science & AI – Electronics & ICT Academy, IIT Guwahati (Offline Program conducted in collaboration with Besant Technologies)
- Google Advanced Data Analytics Professional Certificate
- IBM Generative AI for Data Analysts Specialization
- Deloitte Data Analytics Job Simulation
